### Mini Softbox

TRA009-BK TRA009-WH

- Softens and diffuses light emitted by track fixtures.
- The amount of diffusion can be adjusted with inner and outer baffles for enhanced lighting control.

### 2" Fresnel

TRA002-BK TRA002-WH

- Narrows light output into a more intense, focused beam
- Increases throw distance

### Dome Diffuser

TRA003-BK TRA003-WH

- Spreads beam angle
- Diffuses light output

### Snoot

TRA004-BK TRA004-WH

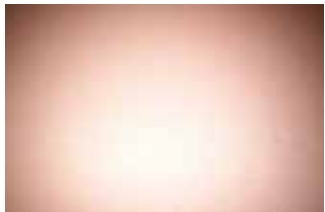

- Reduces light spill and glare

### Honeycomb-N

TRA006N-BK TRA006N-WH

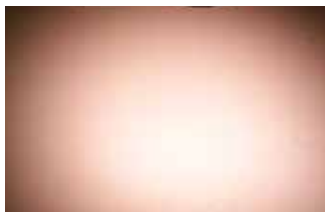

- Shapes light output into a controlled, circular beam
- Narrow beam width

### Honeycomb-W

TRA006W-BK TRA006W-WH

- Shapes light output into a controlled, circular beam
- Moderate beam width

### Louver

TRA005-BK TRA005-WH

- Shapes light output into a controlled, elliptical beam
- Rotates to adjust beam orientation
