

FLEX

Solare Flex is a unique reinvention of the traditional desk lamp. It incorporates Dense Matrix LED™ technology, which allows for adjustable color temperature, a three-step dimming function, and high CRI. Solare Flex also features an intuitive touch pad and a streamlined body with a flexible arm, and it comes in three finishes - black, silver and white. Solare Flex is a versatile desk lamp perfect for studying, reading a book, or using your computer and will complement any room.

TOUCH BRILLIANCE

Features

- Leverages Dense Matrix LED™ technology
- Emits brilliant light with three tunable color temperatures (3200K, 4600K and 6000K)
- Boasts three-step adjustable light intensity
- Consumes only 13 watts
- Uses an intuitive touch pad
- Features a modern body with flexible arm

Electrical Specifications

FLEX	Power Consumption	13 W Max
	Input Voltage	24 VDC ± 5%
Power Supply	Input	100-240 VAC 50-60 Hz
	Output	24 VDC, 1 A, 24 W
